

Removing N2H2 Filtering

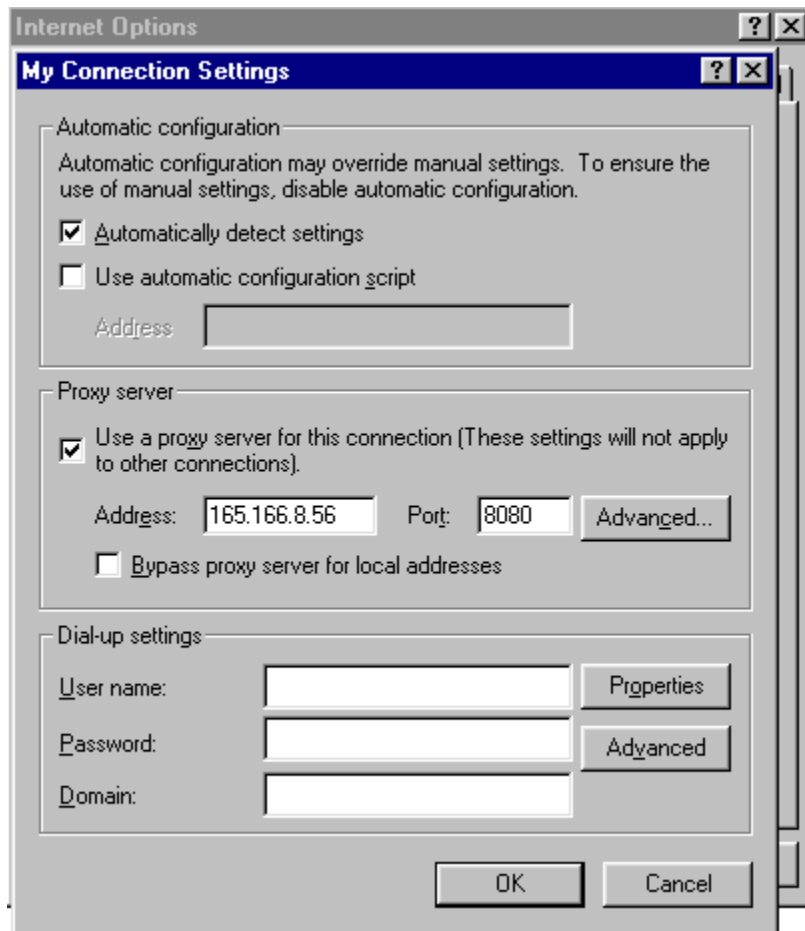

In Internet Explorer, click on Tools, then Internet Options

In Internet Options, click on Connections at the top of the screen. Click on the connection you want to modify, then click on Settings

You'll see the settings as listed here. Remove the numbrs from the boxes, then take the check out of "Use a proxy server for this connection".

The screen will then look like this. Click OK in both windows, then close Internet Explorer.
